Click the 〝Calendar〞icon on the right top
corner , then choose the date to playback
the vicoes from cloud storage.

Choose the desired date to check all videos
from the cloud.

6. SPECIAL NOTES!

6.1 .The device is equipped with a rechargeable lithium battery. The battery life will be affected by
    the device wake-up time and the number of wake-ups. Therefore, the PIR sensor alarm
    detection function is used in an environment with a lot of people. It is recommended to turn off
    or set the device to low sensitivity to reduce device wake-up and call times extend battery life.
    When the battery is low, please charge the battery immediately.

6.2. Keep the device in range of your router.Make sure the device is placed close to the Wi-Fi router.
    If there has to be thick or insulated objects between the device and the Wi-Fi router, which may
    lead to weak Wi-Fi signal, please make sure the Wi-Fi signal is in good level before you start
    using the device.

6.3.It is a delicated device with low power consumption design. Everytime the device is awakened
    and will work for few seconds.After that, the device will enter standy mode to save power. You
    can set the work time in the app settings.

6.4.Because the mainland China does not receive Google's system push messages, you need to
    open the app's self-starting function in your phone to receive push messages.

6.5. This device provides one month of free cloud storage services. If you need to continue using
    value-added services after the trial period expires, you need to purchase them in the app.
